

Enhanced Collection Pages (ECPs) in the **NEW** CTDA

2018 CTDA Open Meeting
Hartford

Mike Kemezis, CTDA Repository Manager

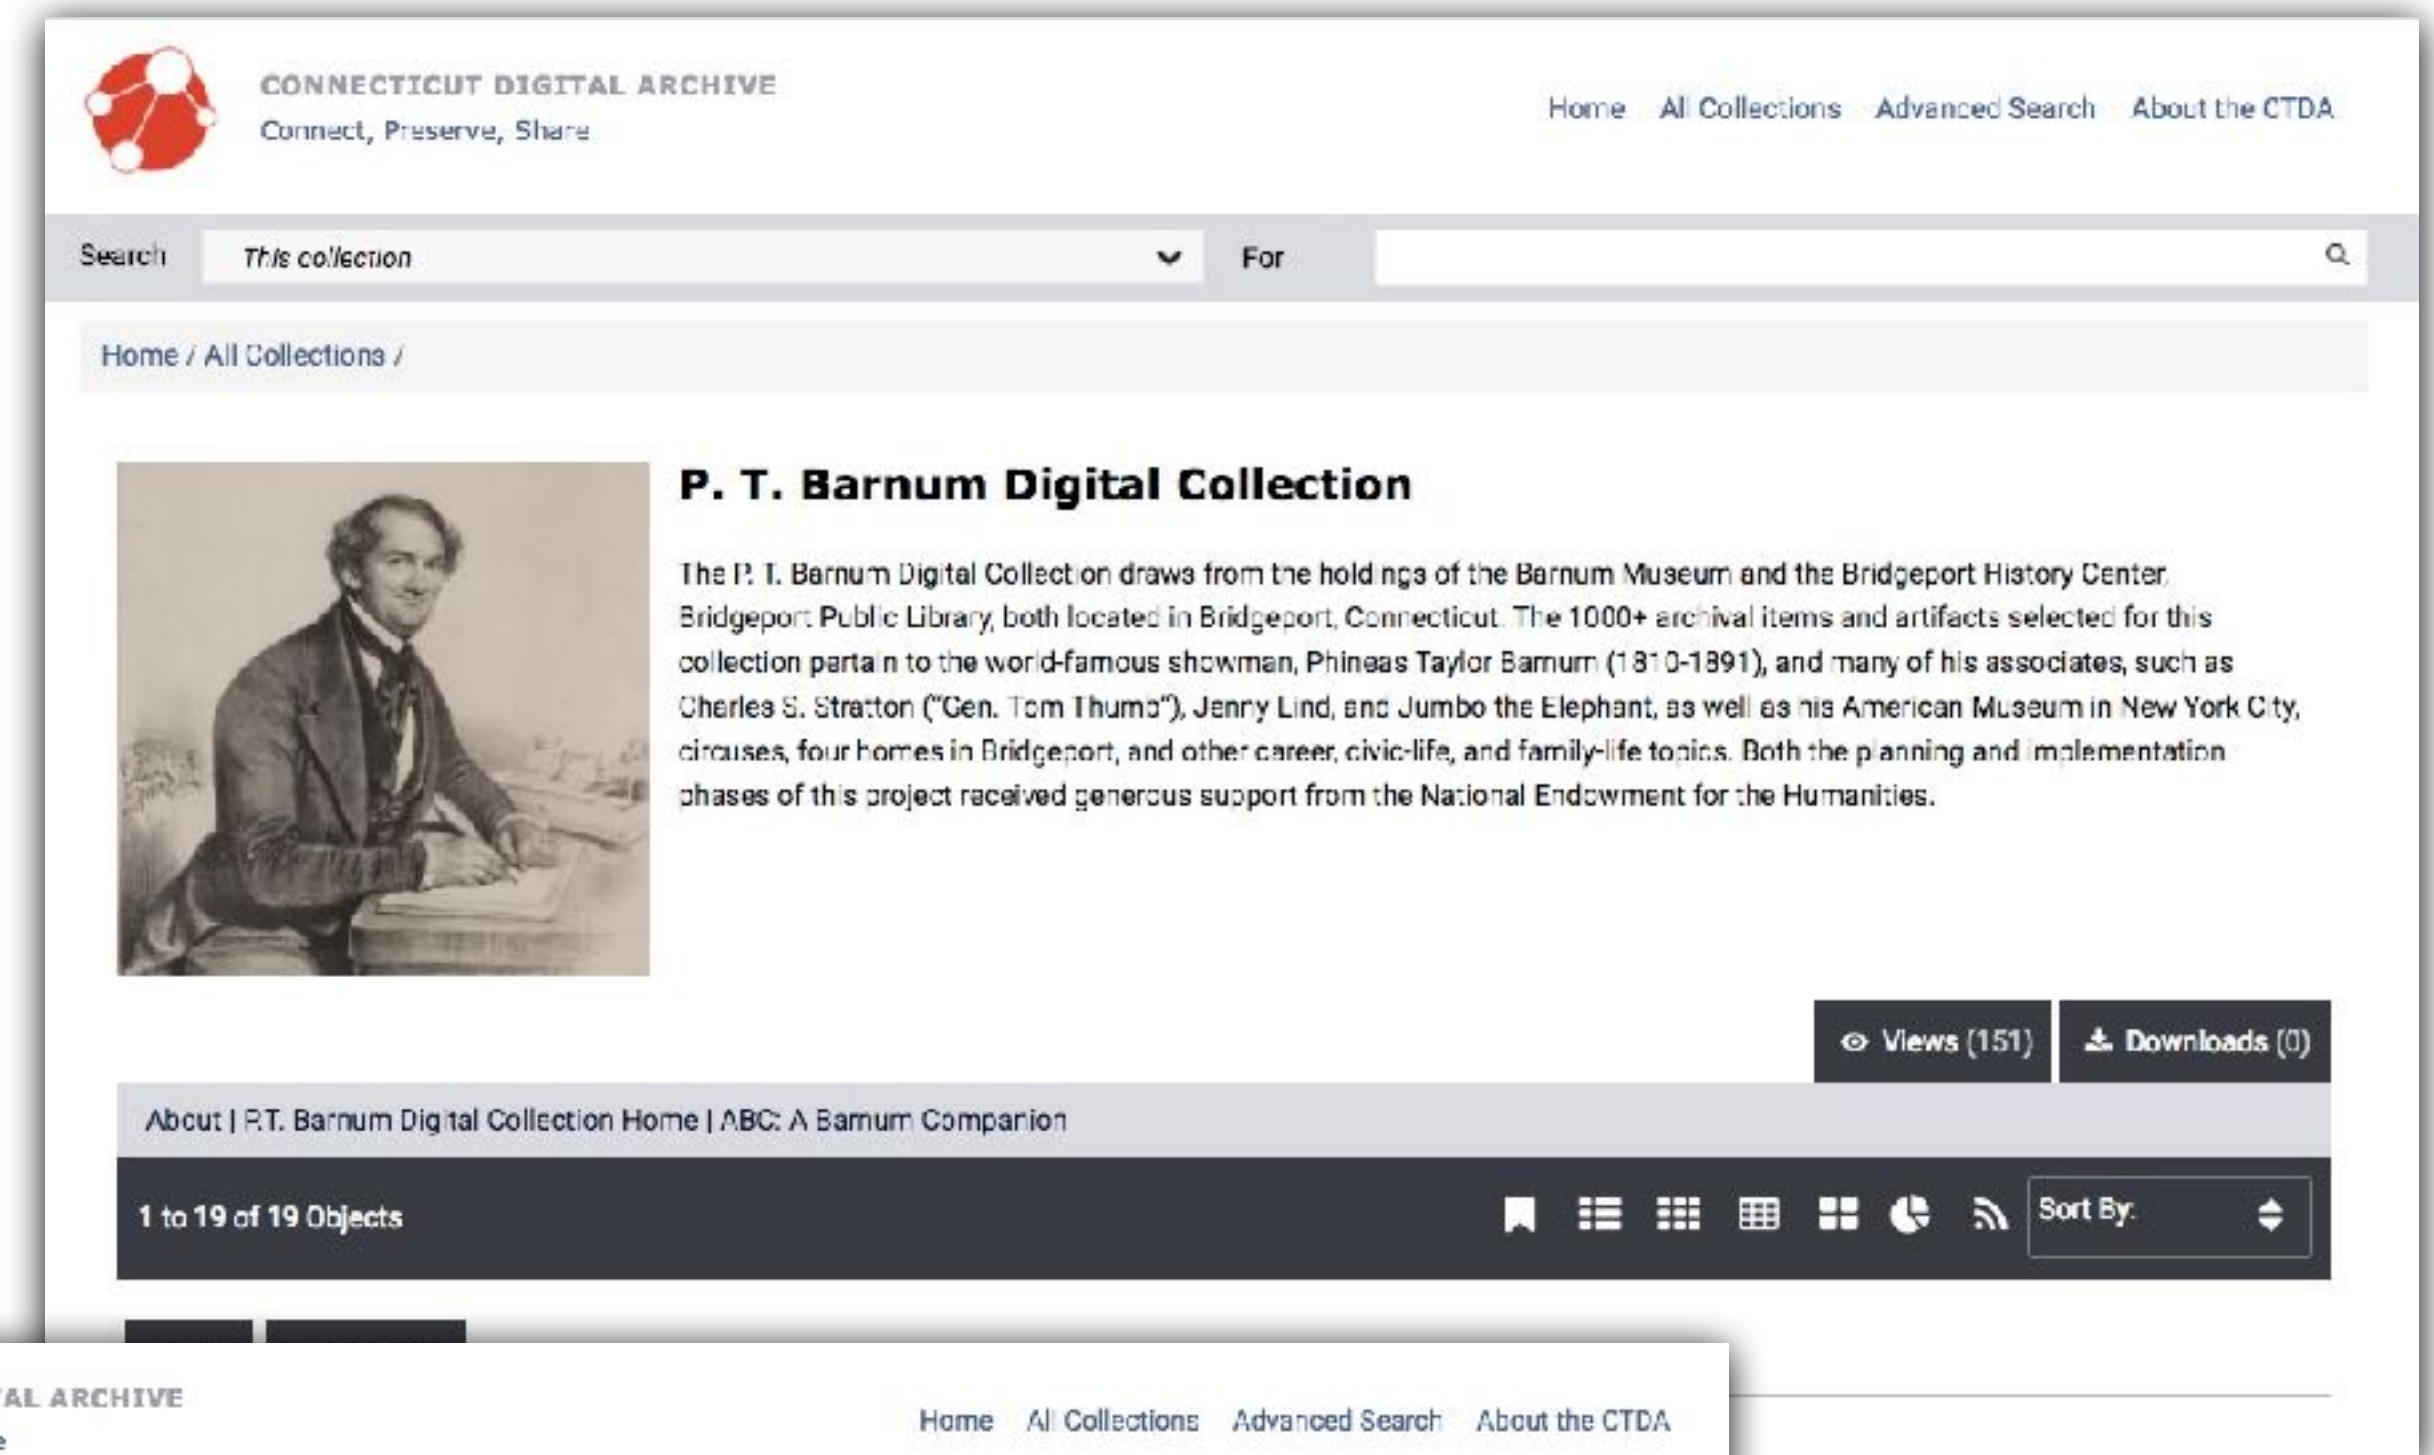

ECPs on the CTDA

- What are the components of an ECP?
- How do you build ECPs?
- How does the CTDA envision using ECPs?
- Discussion on uses of ECPs

What ECPs Offer

- Branded content for
- Context to collection

P. T. Barnum Digital Collection

The P. T. Barnum Digital Collection draws from the holdings of the Barnum Museum and the Bridgeport History Center, Bridgeport Public Library, both located in Bridgeport, Connecticut. The 1000+ archival items and artifacts selected for this collection pertain to the world-famous showman, Phineas Taylor Barnum (1810-1891), and many of his associates, such as Charles S. Stratton ("Gen. Tom Thumb"), Jenny Lind, and Jumbo the Elephant, as well as his American Museum in New York City, circuses, four homes in Bridgeport, and other career, civic-life, and family-life topics. Both the planning and implementation phases of this project received generous support from the National Endowment for the Humanities.

Components of an ECP

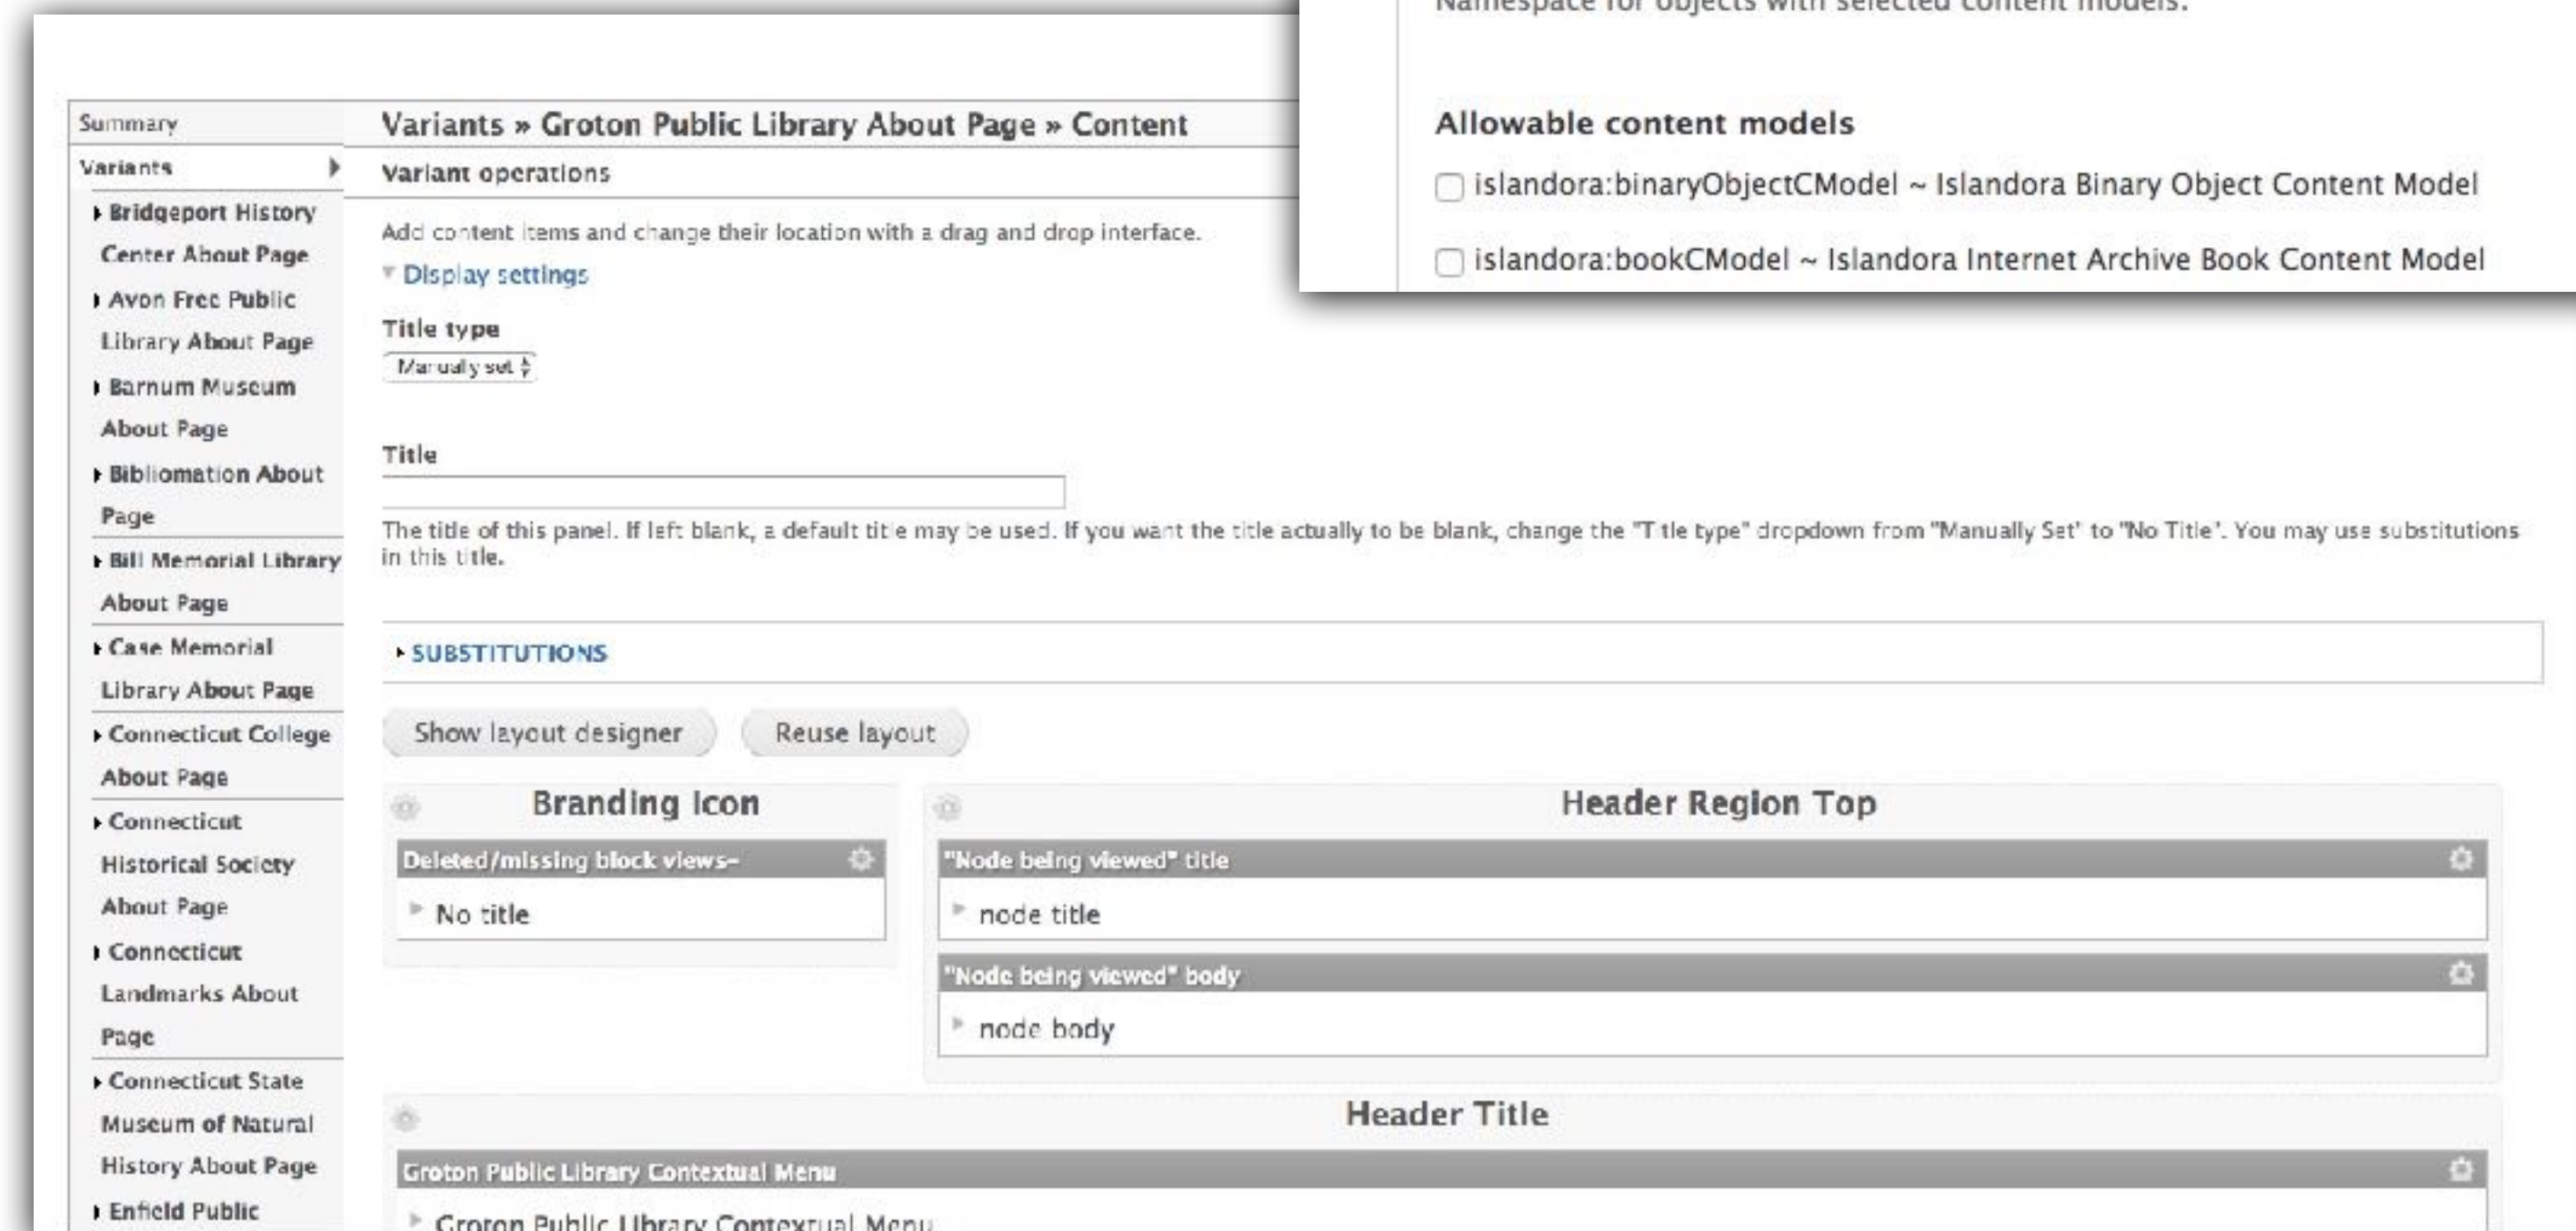

- Logo
- Title
- Description
- Menus
 - Contextual
 - Social Media
- Custom Colors
 - CSS Injector

The screenshot displays the Connecticut Digital Archive website interface. At the top left is the logo and text "CONNECTICUT DIGITAL ARCHIVE Connect, Preserve, Share". To the right are navigation links: "Home", "All Collections", "Advanced Search", and "About the CTDA". Below this is a search bar with "This collection" selected and a search icon. A breadcrumb trail reads "Home / All Collections /". The main content area features the "Connecticut Historical Society museum & library" logo and a detailed description of the society, established in 1825, located at 1 Elizabeth Street in Hartford, housing a museum, library, and research center with over 4 million historical materials. To the right of the description are statistics: "Views (77)" and "Downloads (1)". Below the description is a navigation bar with "About | CHS Collections | Website" and social media icons. A red bar indicates "1 to 24 of 41 Objects" and includes a "Sort By:" dropdown menu. Below this are "View" and "Bookmark" buttons. Two filter menus are visible: "Material Type" and "Held By", both with expandable icons. At the bottom, there are four small image thumbnails representing objects in the collection, with pagination controls showing "1 2 next last".

CTDA Plan

- All Institutions have an ECP
- Description on collection page about your digital collections
- About Page about the institution in general
- Work with institutions to build collection based ECPs
- We plan to soon have institutional admins trained build ECPs

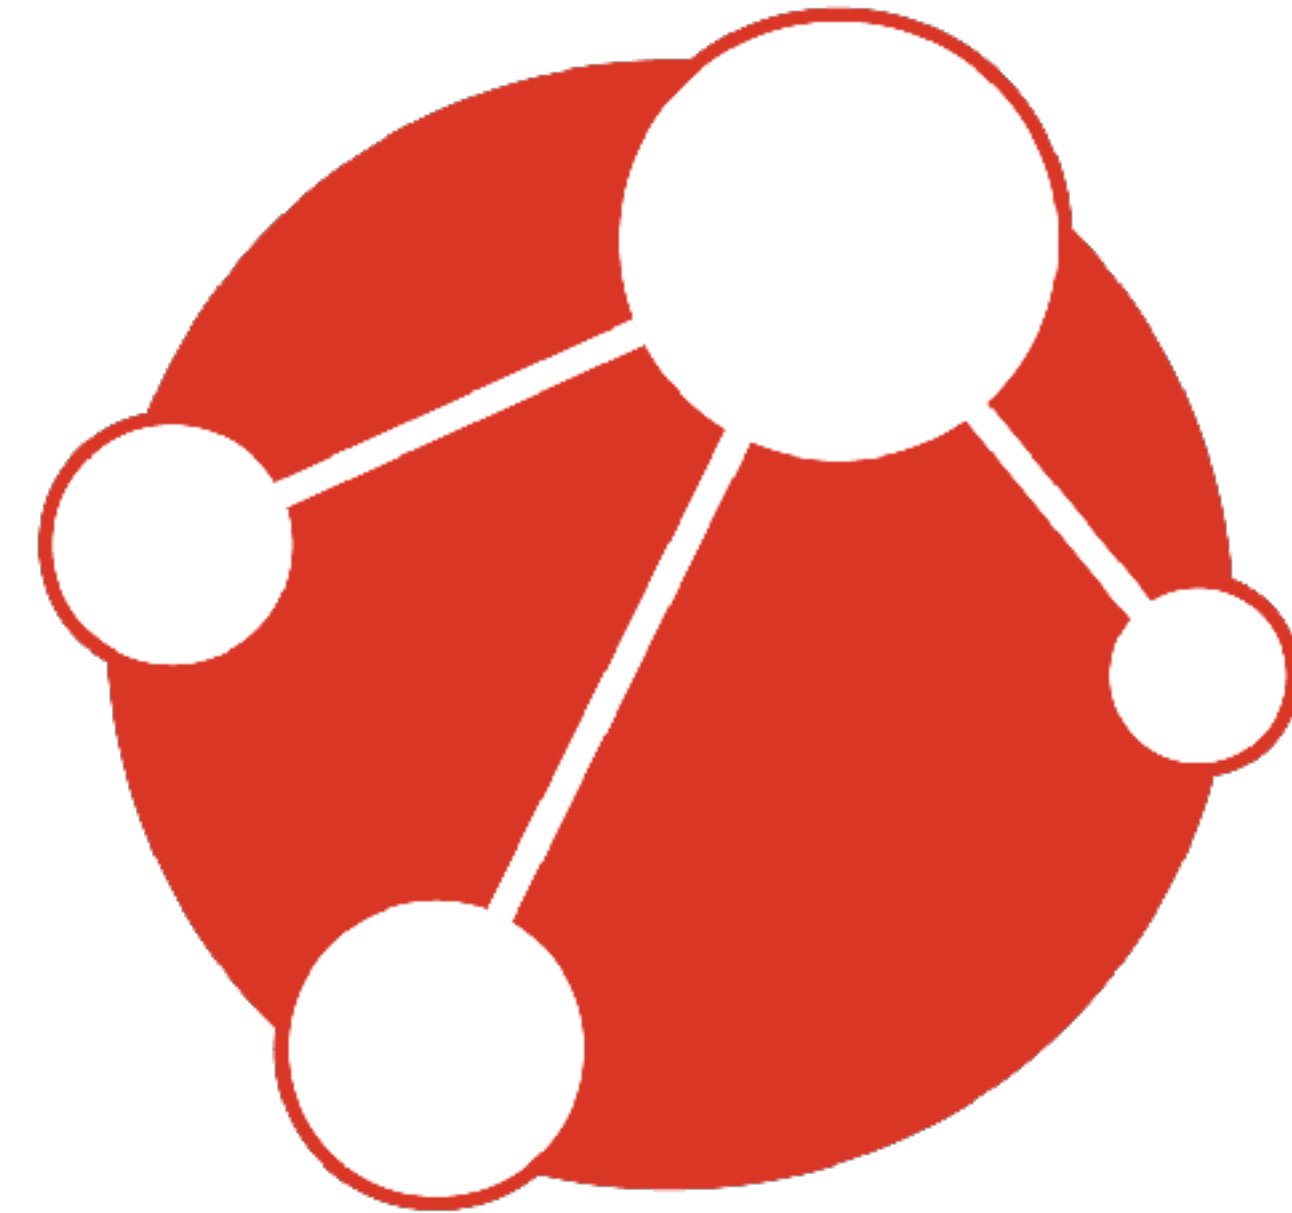

How do you envision using ECPs?

Thank you!
