Administration

CSV files are expected to follow the core rules defined in [RFC 4180](#), with configurable defaults overriding some of the specification in the case of poorly-formed CSV.

If "Ingest immediately" is unchecked, the batch set ID and a link to the batch queue will be provided to you after preprocessing.

Spreadsheet Ingest Parameters

CSV File *
Choose File No file chosen Upload
Select a CSV file to upload, delimited using the below-configured delimiters.

Template *
- Select -
Select the template to apply the given CSV to

Output DSID *
- Select -
ID of the datastream that generated metadata
